Walter E. Dunlap	1935
Edward J. Gallagher	1937-38
Robinson W. Smith	1939-40-41-42

* Deceased

MAYOR'S ADDRESS

Members of the City Council, Citizens and Friends:

At this time I deem it proper that we pause for a few minutes to pay tribute to a man who for nearly 35 years served the City of Laconia efficiently and honorably. I refer to the late Charles Augustus French, known to all of us as Colonel French.

Mr. French was born in Springfield, Mass., on November 7, 1871. He attended the public schools in Massachusetts and New Hampshire after which he entered Dartmouth College pursuing an engineering course. He graduated from Dartmouth College in the class of 1893, receiving a B. S. degree. For a few years he worked for his native State of Massachusetts as an engineer.

Coming to New Hampshire in February, 1906, he accepted an appointment as division engineer in the New Hampshire State Highway Department and in July of the same year, came to Laconia and accepted the office of City Engineer Superintendent of Streets and Sewers, and until his death served our city well in that capacity.

During the first world war, Mr. French obtained a leave of absence from his work in our city in order that he might enter the Army for his country. He immediately received a commission as captain and was stationed at Camp Devens, Mass., in the Construction Division of the Army Quartermaster corps. After the close of the war, Colonel French resumed his duties as City Engineer and Superintendent of Streets and Sewers and held this position until his death on April 7 of last year. Colonel French's long term of service and efficient work in supervising the building of our streets, sewers, etc., need no comment by me for his work in this particular line will always remain a monument to his memory.

Let us rise at this time and pay tribute to this man who has passed to the great beyond.

During the next few minutes, I shall briefly review the accomplishments of your city government during the year 1941 and shall endeavor to present to you a few recommendations that I feel will be worthy of your consideration for the year 1942.

In preparing a report of this kind, it is always well for one to go back and review the recommendations made on previous occasions and I find that in my inaugural address of March, 1940 I stated:

"In checking further on your tax problem, I find that the City of Laconia has no data in the form of charts or maps, giving definite information as of the location of property in the dif-

ferent wards of our city and that our assessors are obliged to depend on their previous year's records with their personal knowledge of the transfers of different pieces of property or any new real property that may come into existence during the year. I find that other cities have charts, maps and data that are very valuable to their assessors and I would recommend that a committee from the Council be appointed to investigate the feasibility of procuring such drawings as referred to above and such other data which will enable the Board of Assessors to perform their duties more efficiently. I believe that such information would be valuable and would eventually bring about a more equitable valuation of all our real property and return good dividends to our city."

At this time I am pleased to report that the recommendation made two years ago has been carried out and while the work is not yet completed, it has progressed far enough to make a report at this time. This work has been carried on during the past two years as a WPA project. The work has been supervised by one of our local citizens—Mr. Lew K. Perley. The large map that you see on my right is a by-product—so to speak—of this project. When the project has been finished our tax assessors will have available maps and data that will enable them to locate every piece of property within our city limits.

As I stated this large map is a by-product. In order to obtain the necessary information needed to carry out a project of this kind, it was necessary to have an aerial photograph taken of the entire city. This photograph was taken from the air 5000 to 6000 feet above the city, then it was enlarged, cut into several pieces and pasted together to make the several maps that will be available at a later date for use of our Board of Assessors. In preparing this map we had the cooperation of the State planning and Development Commission at Concord.

I have with me a small aerial map which I hope will be placed on sale at some convenient place and will be made available for any citizen of Laconia wishing to obtain a copy.

The total estimated number of items in the City of Laconia taken from the Assessor's Books, is 5100. To date 4564 pieces of property have been abstracted in the Registry of Deeds office. Three thousand eight hundred and fifty-nine deeds have been copied, checked and typed onto the cards which go with the map. Thirteen hundred pieces of land have been measured in the field and verified with their respective deeds, and while the number of pieces is small the work done to date includes

all of ward one, which is the major part of our rural area; all of ward two and ward three.

From the mosaic, a base map has been traced in linen, of the entire city and the individual section maps of the business and residential part of the city have been made from the base map. All of the property in Ward One has been drawn onto either city and the individual section maps and these in turn have been returned to Concord and have been traced, or are in the process of being traced, which is the finished product we have been working for. Briefly, 90 percent of the abstracting has been completed; 76 per cent of the deeds have been copied and typed onto Form No. 2 to be used in the Assessors' office; and 26 per cent of the number of tracts of land shown on the Assessors' books have been measured in the field and verified with the deeds. But this 26 per cent is also more than one half of the total area of the township and nearly all of the three wards, including Ward One. The field work will be started in Ward Four this week.

While the project started December 17, 1940, there was very little field work done until September, 1941 when three men were put to work in the field—two of whom had worked on the Milford and Wilton maps. The mosaic and base map were not started until about October, 1941 because there was no one available to do this work until a man who had worked on the other two projects was assigned to this project, and this man does his work at the State Planning Board's office in Concord and is on the state payroll. For that reason no drawing of any plans was attempted until about the last of October and the amount of work done to date has been accomplished since that time. Mr. Carl Blaisdell, working here in the Laconia office, has done very satisfactory work and has been a great help on this project.

Laconia Municipal Airport

A year ago I reported on the development of the Laconia Municipal Airport which was then under construction and in that report I stated that in order to protect the City of Laconia from possible embarrassment in the management of this airport in the future and that the tax question might forever be settled, your mayor and Council with the cooperation of the Commissioners of Belknap County caused to be introduced into our Legislature at Concord an act creating the Laconia Airport Authority and exempting said airport from taxation.

On different occasions a few of our citizens have questioned

why the Authority has not been created as set forth in Chapter 272 of the Session Laws of 1941. The creation of the Laconia Municipal airport came about as a project of the WPA, sponsored by the City of Laconia and Belknap County. Actual work started in January, 1941. At that time specifications called for the completion of the two runways and the relocation and building of the highway from the Lake Shore road to the so-called Weirs road near Winnepesaukee Farm. This work was to have been completed last year with the exception of the hard surface. The road is nearly completed at this writing. Additional funds have been allocated to hard surface the north-south and east-west runways. Also \$30,000 of Federal funds have been allocated to install a suitable lighting system and an additional sum of money to finish the highway and clearing stumps on land adjacent to the runways. Application has been made for the construction of the third runway. I am assured that this work will be completed at an early date this spring.

Now the question: Why hasn't the Authority been created? As previously stated, this is a WPA project. The city of Laconia is the sponsor and Belknap County the co-sponsor. All negotiations and contracts with our Federal government have been drawn up and signed under this plan and it is the wish of the WPA office at Manchester that no change in authority be made until the project has been completed. Inasmuch as the Federal government is now furnishing all the funds to complete the airport, it would seem advisable to comply with their wishes. However, upon completion of this project, I can assure you that the Authority will be created as set forth in Chapter 272 of the Session Laws of 1941, and that the management of the Laconia Municipal Airport from that date on will be carried out by the Laconia Airport Authority.

City Hall

In March, 1940 and again in March, 1941, I mentioned the fact that Laconia was sadly in need of a new city hall and on both occasions I gave my reasons for making such a statement and I would refer you to the City Report of 1940 and 1941. However, I wish to take just a few moments to explain further why we as a city government should consider very seriously at this time the problem of planning for a new city hall as well as other permanent improvements.

Early last fall Mr. Guy H. Williams area planning engineer of the public work reserve for New Hampshire, interviewed your mayor stating that it was the policy of our government to prepare now for the emergency that is bound to come when

this war has been terminated. In other words it is anticipated that sometime in the not too distant future, it will be necessary to carry on a public works project to take care of the critical labor situation and in order that the country may be prepared for this emergency, it is deemed advisable that each town and city have on file not only in their own office but in the office of the Public Work Reserve in Washington plans and specifications for projects that will be needed at some future date.

Some months after my first interview with Mr. Williams, Pearl Harbor was attacked and the United States found itself at war with the Axis powers. I, for one, find it very difficult to interest myself at this time in any project that necessarily will involve the expenditure of large sums of money. Yet, on the other hand, if we are to find ourselves in a depression after the present emergency is over and we find that it becomes necessary to carry on work projects similar to those that have been carried on in the past, then it behooves us as thinking citizens to make plans right now for that emergency regardless of the fact that the winning of this war should be our first duty and our first thought. I believe it to be good business and I am recommending that you as councilmen give this matter careful study and serious consideration and co-operate with our Federal authorities to the end that Laconia will have a public works program already mapped out, if and when, the emergency comes upon us. Your investigation should not be confined to city hall alone, but rather cover a broad field.

Sewers and Disposal Plants

A year ago I called your attention to the fact that the question of sewers and sewage disposal in the City of Laconia was paramount, I stated that about 2500 homes in Laconia were connected with the sanitary sewer system and that about 354 buildings could not be connected until new sewers were built and I am referring to buildings located in the compact part of the City of Laconia. Sewers are an absolute necessity. Ever since our city was chartered and probably before or for more than 50 years at least a certain percent of our homes and public buildings have been furnished with sanitary sewers at the expense of all the people, homeowners that do not have sewer connections are now and always have paid their proportionate part for their more fortunate neighbors who live where sewers are available.

In our City Clerk's Office there is always on file petitions for sanitary sewers that if built would cost several thousands of dollars. All of these sewers are needed and should be built,

but if granted under our present system it would be necessary to bond the city to a sizeable sum. Upon investigation, I find that there are hundreds of cities throughout the United States that finance the building of their sewers by a sewer rental system. In analysing this sewerage problem further, I can find no arguments why such a system is not just and equitable. Every home owner in Laconia and every business establishment pay a fee for bringing water into their home or business establishment. Then why shouldn't a fee be charged for the disposal of this water after it has been used?

I stated a year ago that it was my opinion that a small graduated fee should be charged for the use of our sewers. I further stated that if such a plan were put into operation, it would only be a few years before the City of Laconia, would have a sewerage system that would be ample to take care of all of our sewerage disposal in a way that would cause no one to blush and that in so doing we would make our beautiful city a finer place to live and to do business in. Upon investigation one finds that other New Hampshire cities are faced with the same problem and are looking for relief in some way other than direct taxation. In checking over our city charter and also our state laws, I found that before a sewerage rental plan could be put into operation our city charter as well as state laws would have to be amended. This matter was taken up with our State Board of Health and I am pleased to report that on June 11, 1941, necessary legislation was enacted to take care of this situation. As this law is a short one, I will quote same. In part:

"1. Sewerage System. For the defraying of the cost of construction, management, maintenance, operation, reconstruction, replacement and repair of city sewers and sewer systems, including treatment and disposal works, and for the payment of the interest and principal on any debt incurred to pay such costs, the mayor and aldermen may establish a scale of rents, to be called sewer rents, which shall be paid by the owner or owners of real estate connected by sewerage drains with city sewers and sewer systems, or whose real estate receives special benefit therefrom in any way. The mayor and aldermen may prescribe the manner in which and the time at which such rents are to be paid and collected and may change, if advisable. Such rents may be based upon the metered consumption of water on the premises connected with the sewer system, the number and kind of plumbing fixtures connected with the sewer system, the number of persons served by the sewer system or upon any other equitable basis. Funds raised from sewer rents

shall be used only for the purposes prescribed in this section.

"Application. This act shall apply only to the cities of Concord, Laconia and Portsmouth; and sections 5, 5-a, 5-b, 6, 7 and 11, chapter 95, Public Laws, as amended by chapter 98, Laws of 1933 (sections 5 to 9, inclusive and 13, chapter 111, commissioners' report) shall not apply to said cities."

"Repeal. Section 6 of chapter 241 of the Laws of 1893, relative to the city of Laconia, is hereby repealed so far as the same is inconsistent herewith.

"Takes Effect. This act shall take effect upon its passage."

As you know, some years ago a survey of the entire sewerage situation in Laconia was made at the expense of the state, and about five years ago a Federal project was applied for and was granted. This project was rejected by Laconia because of the large amount of money necessary to raise by taxation for this purpose.

I appreciate that if a sewer rental system were to be put in operation it would be a radical change. I also recognize the fact that there is much to be said on both sides of the question. But this much I know that sometime in the not too distant future this problem must be met. It has been discussed and avoided by every administration since I became a citizen of Laconia way back in 1915. I am recommending that you approach this serious question with an unselfish open mind and act for the best interest of all the people. Knowing you as I do, I am satisfied that you will tackle the problem and settle the question on its merits.

Police Department

Our Police Department has operated very efficiently during the past year under the guidance of our Police Commission and the able leadership of our Police Chief, George N. Hubbard. During the past year this department installed a two-way radio system at an expense of \$2100. The Police Department was so anxious to install this system and thereby increase their efficiency in service to the public that they were willing to donate from their relief fund such moneys as would be necessary to purchase the equipment. The city of Laconia appropriated \$1000 toward the balance.

I am pleased to report that this system has worked out very efficiently and if any of our Citizens are not acquainted with the system, I am sure that Chief Hubbard will explain its operation in detail upon request.

In case of any disaster that might visit our city during this

war emergency I am sure we will find that this two-way radio system will be very valuable.

The Weirs Waterfront

During the summer of 1941 the municipal building at The Weirs was in operation for the first time and I am pleased to report that this building has proved a great asset to that section of our city. It has not only provided needed up-to-date toilet facilities, but has afforded a partial shelter for our summer visitors when needed. The concession on the Lake side of the building has been leased to the Armstrong Company for \$400 per year plus 20% of the gross business, and the check from them to the City of Laconia last year amounted to \$520.67; The pay toilets in the municipal building netted \$330.73; the air base was leased for \$400.00, making a total income of \$1,261.40. The City of Laconia paid out for janitor service and other miscellaneous expense the sum of \$715.13 leaving a net profit of \$546.27 to be applied toward maintenance and further improvements.

There is still a lot to be done to make this waterfront attractive and usable.

During the past year one of the old wharves was rebuilt and the site of the old freight depot was walled up and graded over. The further improvement of this waterfront is debatable, but we must not lose sight of the fact that The Weirs, New Hampshire is one of the most active ports to our beautiful Lake Winnepesaukee. Those who travel by boat are entitled to a suitable place to land and anchor their boats just as much as our citizens who travel by automobile need a place to park and I would recommend that a moderate sum be appropriated each year to continue the improvements at The Weirs.

Public Schools

As you know our schools are governed by a Board of Education elected by popular vote. Therefore, they do not come under the direct supervision of the city's chief executive. I would be ungrateful, however, if I did not recognize the fact that the Board of Education, Superintendent of Schools and all officials of our School Department have given 100% cooperation to your city government, and it is my belief that the schools of Laconia are in first class condition and warrant support and commendation.

Relief Department

The relief situation as one would expect has improved wonderfully during the past years. With our factories running

overtime, there is work for everyone. Therefore, our relief load has dropped to a minimum. At the end of the fiscal year February 15, 1939, the cost for poor relief was \$50,131.71, while for the year ending February 15, 1942 the cost was only \$14,922.30 or a decrease for the year 1941 over the year 1938 of \$35,209.41.

Our Overseer of the Poor ably assisted by Mrs. Mildred Bucklin as an investigator have managed their department very efficiently and are to be commended for their fine service.

Fire Department

No new equipment has been purchased during the year for the Laconia Fire Department. In fact it would seem that no new equipment of any amount would be necessary for several years to come. I am informed that the Laconia Fire Department is classed as A-1 and enjoys the reputation of being very efficient and well equipped.

The change that has just been made tonight in the ordinance affecting the Fire Department was made to put this department on an equal rating with other departments of our city and place the responsibility of running the department on the shoulders of the Board of Engineers who will in turn be responsible to the Mayor and Council.

I might say in passing that both the Police and Fire Departments have a large force of Auxiliary Policemen and Firemen and I find that they are being efficiently trained and will be very valuable to our city in any emergency that may befall us.

Board of Public Works

Soon after the beginning of our fiscal year our City Engineer Colonel French passed away. The Board of Public Works very wisely appointed Mr. French's assistant, Mr. Arnold O'Mara as acting engineer. Mr. O'Mara has served Laconia efficiently and economically during the past year. He has endeavored to cooperate with the Mayor's Office with every request made upon him and under his supervision many permanent improvements have been made.

Mr. O' Mara's job is not an easy one, yet under his direct supervision the work of the Public Works Department has been carried on in an efficient manner. You will recall that the City of Laconia closed its books last year with a balance of \$22,314.-54. The greater part of this balance was used for permanent improvements carried on by our Public Works Department.

Early last year it became apparent that something should be done to relieve the traffic conditions at Casino Square, espe-

cially at certain hours of the day. Therefore, in cooperation with Scott & Williams, Inc., a plan was worked out whereby that company would construct a bridge across Jewett Brook and continue to the street known as Howard Street. The City of Laconia would purchase a strip of land between Davis Place and Strafford Street and would construct a 40-foot road connecting the two streets. This was done and the traffic congestion formerly occurring at Casino Square when the employes of Scott & Williams, Inc., were being discharged or were returning to their work has been eliminated. Davis Place is used as a one-way street. South bound traffic uses the highway constructed by Scott & Williams, Inc., which opens onto Howard Street, and the north bound traffic uses the new road constructed by the City of Laconia connecting Davis Place with Strafford Street.

Lakeside Avenue

Lakeside Avenue adjacent to the Municipal building was widened, taking in all the land deeded to the City of Laconia by the Boston and Maine Railroad. This widening provides better parking facilities. The fence separating the railroad tracks from the street was moved back onto the city line. A cement curb was built to prevent cars from encroaching on the railroad property.

I recommend that this area be given another coat of tar this year and be marked out into parking lanes.

Elm Street

The sum of \$1500 was appropriated by the City of Laconia and a like amount by the State Highway Department for the improvement of Elm street, from Massachusetts Avenue to the Parade Road. There is a little more work to be done and when completed the State Highway Department will take over this section of Elm Street thereby relieving the City of Laconia of further maintenance expense.

Town Road Aid

The City of Laconia appropriated \$525 and the State of New Hampshire added the amount of \$2100 for Town Road Aid work. This money was expended largely on the so-called Roller Coaster Road and the Hilliard Road at The Weirs.

Parking Area—Rear of City Hall

The entire surface was given a surface treatment with tar and sand and I recommend that it be given another treatment this spring and then marked out in parking lanes.

Sidewalks

A total of 3,850 square yards of sidewalks were built on sixteen of our different streets scattered all over the city. The length of new sidewalks built in 1941 was over 1.3 miles.

Paugus Road

Early in the summer a petition was received for a continuation of North Street over the Prescott property to land owned by the Boston and Maine Railroad adjacent to Paugus Park. After viewing the property, the road was laid out and ordered built. This road when completed will open a lot of valuable property for future building.

At The Weirs a new wharf 184 feet by 12 feet was constructed to replace the one built a number of years ago.

Other improvements at The Weirs made by the Public Works Department have been mentioned previously in this report.

Any recommendation that I would make at this time relative to any department is that we must maintain our present equipment and property at all times. Any and all new construction should receive careful investigation before money is appropriated for same during the emergency.

Civilian Defense

Early last July His Excellency Governor Robert O. Blood asked your mayor to recommend a citizen of Laconia to serve as chairman of the Laconia Council of Defense. My recommendation to Governor Blood was our City Solicitor William W. Keller. Under his leadership and guidance the Laconia Council of Defense was put into operation.

Later on in the year, the Belknap County Cooperating Committee New Hampshire State Council of Defense was organized under the leadership of Major Thomas P. Cheney and it is my understanding that the Laconia Council of Defense has lent its full cooperation to the state and county organization and I can assure you that every citizen enrolled in Civilian Defense in Laconia is doing his or her part to meet any catastrophe that may befall us.

City Finances

Our Tax Collector has made a fine showing again this year in the collection of taxes for the fiscal year. A balance of \$42,-

177.30 being unpaid as of February 15, 1942 as compared to a balance of \$46,309.71 for the previous year. Many of the older accounts have either been redeemed, taken by tax deeds or abated and many of these left which are uncollectable should be abated during the next year.

Notes

At the end of the fiscal year February 15, 1941 there was \$50,000 in notes outstanding but the year just closed shows no notes outstanding for the first time in many years.

Credit Balance

When our city books were closed and studied on February 15, 1942 it was found that we had a balance of \$33,971.15. This amount represents the excess of current assets over current liabilities and is greater by over \$11,000 than the one for the previous year, and our auditor tells us that it is also by far the largest balance ever attained since the incorporation of the city in 1893. During the past year \$49,500 was paid on our serial debt and no bonds were issued. This reduced our net debt to \$229,750 which is less than 2% of the valuation of our city and a new low for many years.

A careful analysis of the above figures would indicate that the financial structure of our city is sound and that we are prepared for darker days.

CITY GOVERNMENT

LACONIA, N. H.

Inaugurated fourth Tuesday of March, biennially. Stated meetings: The last Monday of each month at 7:30 o'clock P. M., at City Council Room, 68 Pleasant Street.

CITY COUNCIL

MAYOR

ROBINSON W. SMITH

Elected March 11, 1941 for two years. Office: 68 Pleasant Street

COUNCIL

Elected March 11, 1941, for two years.

Ward 1—George R. Bowman

Ward 2—Philip J. Blanchette

Ward 3—Ralph C. Kimball

Ward 4—Frank R. Ricker

Ward 5—Malcolm E. Barney

Ward 6—Kenneth D. Hopkins

STANDING COMMITTEES, 1942

Finance—The Mayor, Kimball and Hopkins.

Accounts and Claims—Kimball, Ricker and Hopkins.

Public Instruction—Bowman, Ricker and Barney.

Roads and Bridges—Barney, Blanchette and Bowman.

Fire Department—Kimball, Barney and Hopkins.

Parks and Commons—Bowman, Barney and Hopkins.

Lighting Streets—Bowman, Kimball and Hopkins.

Elections and Returns—Hopkins, Bowman and Blanchette.

Engrossed Ordinances—Ricker, Kimball and Blanchette.

Sewers—Blanchette, Bowman and Ricker.

Police and Licenses—Barney, Kimball and Ricker.

Land and Buildings—Ricker, Barney and Blanchette.

RESOLUTIONS

In the year of our Lord one thousand nine hundred and forty-two.

A Resolution relative to the printing and publishing of the Compiled Ordinances of 1941.

Resolved by the City Council of the City of Laconia, as follows:

Section 1. That the Finance Committee and the City Solicitor are authorized and directed to prepare for publication, and to publish, the Ordinance passed March 24, 1941 and entitled "Compiled Ordinances of 1941." In such preparation they are authorized to make corrections in the numbering and headings of the chapters and sections; to correct errors in typography and punctuation; to insert in the appropriate place all ordinances passed after March 24, 1941 and on or before March 30, 1942 and to make such changes in the body of said ordinances as are required thereby. The publication shall include the City Charter as amended to 1917, amendments since that date and up to March 30, 1942, and said Charter as amended to March 30, 1942. The publication shall also include legislation concerning the City of Laconia, orders of the Board of Public Works, and rules of order of the City Council. The publication shall further include suitable records of city officials from 1917 to 1942, both inclusive, similar to the records contained in the revised ordinances of 1916, a thorough index of the entire volume, and appropriate pictures.

Section 2. The Finance Committee and the City Solicitor shall contract for the printing and binding of 300 copies, which shall be delivered to the City Clerk. The City Clerk shall sell such copies to those applying therefor at prices to be fixed by said Finance Committee.

Passed and Approved March 30, 1942.

ROBINSON W. SMITH, Mayor.

RESOLUTION CONSTITUTING AGREEMENT WITH THE UNITED STATES RELATIVE TO OPERATION AND MAINTENANCE OF THE LACONIA AIRPORT

WHEREAS, The Administrator of Civil Aeronautics of the United States Department of Commerce (hereinafter re-

ferred to as "Administrator"), acting pursuant to the terms of the Department of Commerce Appropriation Act, 1942 (Public Law 135, 77th Congress, Title II), has designated as necessary for national defense a project (herein called the "Project") for development of the Laconia Airport (herein called the "Airport"), which project is identified as S-904-27-8; and

WHEREAS, as a condition precedent to release and operation of the Project, the Administrator requires that the City of Laconia have title in fee simple to the landing area of the Airport and the lands to be improved under the Project and enter into an agreement with the United States (herein called the "Government"), in the manner and form hereof; and

WHEREAS, The City of Laconia is legally, financially, and otherwise able to enter into such an agreement and desires to avail itself of the benefits of prosecution of the Project:

NOW, THEREFORE, BE IT RESOLVED BY THE MAYOR AND COUNCIL OF THE CITY OF LACONIA:

Section 1. That for and in consideration of development of the Airport by the Government as contemplated by the Project, the City of Laconia does hereby covenant and agree with the Government as follows:

(a) The Government shall have the right to develop the Airport as it sees fit, including the right to determine the exact nature of the improvements to be made under the Project, the manner in which the Project is to be conducted, the amount of Federal funds to be expended, and all other matters relating to the Project. The City of Laconia will cooperate with the Government to ensure prosecution of the Project without interference or hindrance, and agrees to permit the agents and employees of the Government, and all persons authorized by the Administrator, to enter upon, use and occupy the Airport as the Administrator may deem necessary or desirable in connection with the conduct of the Project.

(b) The City of Laconia agrees to indemnify and save harmless the Government against and from any and all contractual claims and damages which may arise from or in connection with the carrying out of the Project, excepting claims for materials furnished or work performed pursuant to authority given by officers, employees, or agents of the Government.

(c) It is understood and agreed that all improvements made under the Project shall be the sole and absolute property of the City of Laconia except where specifically agreed otherwise, in writing, prior to the undertaking of the improvement or installation in question.

(d) The City of Laconia agrees that, continuously during the term of this agreement, the Airport will be operated, as such, and for no other purpose, and that unless utilized exclusively for military purposes, it will at all times be operated for the use and benefit of the public, on reasonable terms and without unjust discrimination, and without grant or exercise of any exclusive right for use of the Airport within the meaning of Section 303 of the Civil Aeronautics Act of 1938; provided however, that the foregoing obligation to operate said airport, shall not, under any circumstances, be construed as requiring said City of Laconia to remove snow from said Airport or any part thereof, at any time.

(e) The City of Laconia agrees that it will at all times during the term of this agreement maintain in good and serviceable condition and repair the entire landing area of the Airport and all improvements, facilities, and equipment which have been or may be made, constructed, or installed with Federal aid, including all improvements made under the Project, other than facilities and equipment owned by the Government; provided however, that the foregoing obligation to maintain said airport, shall not, under circumstances be construed as requiring said City of Laconia to remove snow from said airport or any part thereof, at any time.

(f) Insofar as is within its powers and reasonably possible, the City of Laconia will prevent any use of land either within or outside the boundaries of the Airport, including the construction, erection, alteration, or growth, of any structure or other object thereon, which would be a hazard to the landing, taking-off, or maneuvering of aircraft at the Airport, or otherwise limit its usefulness as an airport.

(g) In order to protect the rights and interests of the Government under this resolution, the City of Laconia agrees that it will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants

is assumed by another public agency. Provided however, that the City of Laconia shall have the right, when and if it transfers the said Airport to the Laconia Airport Authority, as established under Chapter 272 of the New Hampshire Laws of 1941, to assign this agreement, together with all of its rights thereunder, to said Airport Authority, provided that said Airport Authority assumes the obligation to perform all of the covenants contained herein, and provided that said City of Laconia shall remain concurrently liable to perform all of said covenants.

Section 2. That the City of Laconia does hereby warrant and represent to the Government as follows:

(a) That the City of Laconia has title in fee simple to all the lands comprising the landing area of the Airport and to all lands to be improved under the Project, which lands are shown on the sketch attached hereto as part of Exhibit A, and that said lands are held free from any lien or encumbrance;

(b) That the City of Laconia has the power and authority to adopt this resolution and to perform all of the covenants contained therein;

(c) That the City of Laconia is financially and practically able to perform all of the covenants contained in this resolution;

(d) That there is no pending or threatened litigation or other legal proceeding, and no material and relevant fact, which might adversely affect the prosecution of the Project, the operation of the Airport, or the performance of any of the covenants contained in this resolution, which has not been brought to the attention of the Administrator;

(e) That the Mayor and Council of the City of Laconia has complied with all requirements of law in adopting this resolution.

(f) That such of the above representations and warranties as involve questions of law are made upon the advice of the Solicitor of the City of Laconia, whose certificate as to such matters has been previously delivered to the Mayor and Council and is annexed hereto and made a part thereof, as Exhibit A.

Section 3. That City Solicitor and Mayor be and they are authorized to furnish the administrator such legal and factual

information relative to the Airport, the Project, and this resolution as he may reasonably request.

Section 4. That Sections 1 and 2 of this resolution shall become effective upon the award of any construction contract for any portion of the Project or the inauguration of any portion of the Project under force account, and shall continue in full force and effect during the useful life of the improvements made under the Project.

Section 5. That two certified copies of this resolution be sent forthwith to the Administrator, through the Regional Manager of Civil Aeronautics, 2200 U. S. Custom House, Boston, Massachusetts.

Passed and approved March 30, 1942.

ROBINSON W. SMITH, Mayor.

In the Year of our Lord one thousand nine hundred and forty-two.

A Resolution authorizing temporary loans to an amount not exceeding Three Hundred Fifty Thousand Dollars in anticipation of the taxes of the present Municipal year.

Resolved by the City Council of the City of Laconia, as follows:

That for the purpose of meeting current expenses of the City, the City Treasurer be and hereby is authorized and empowered to make temporary loans from time to time for the use of said City of sums not exceeding the aggregate amount of \$350,000.00, said loans being in the anticipation of the taxes of the present municipal year and hereby expressly made payable therefrom, and to give for such loans subject to the written approval of the Committee on Finance, notes of the City, each note to become due and payable within one year from its date. Said Notes shall be signed by the Mayor and City Treasurer and countersigned by the City Clerk, shall be registered in the books kept for that purpose in the offices of the City Treasurer and City Clerk respectively.

This resolution shall take effect upon its passage.

Passed and approved April 27, 1942.

R. W. SMITH, Mayor.

In the Year of our Lord one thousand nine hundred and forty-two.

A Resolution making appropriations for the year ending February 15, 1943.

Resolved by the City Council of the City of Laconia, as follows:

That the following appropriations be made for the year ending February 15, 1943, which appropriations shall be in full for all expenditures in each department named.

Passed and approved July 7, 1942.

ROBINSON W. SMITH, Mayor.

In the Year of our Lord one thousand nine hundred and forty-two.

A Resolution raising money by taxation for the year ending February 15, 1943.

Resolved by the City Council of the City of Laconia, as follows:

That there shall be raised and there is ordered to be raised on the polls and estate liable to be taxed within said City the sum of five hundred twelve thousand eight hundred sixty-one and fifty-nine hundredths (\$512,861.59) Dollars to defray the necessary expenses and charges of the City for the financial year ending February 15, 1943.

Passed and approved July 8, 1942.

R. W. SMITH, Mayor.

ORDINANCES

In the Year of our Lord one thousand nine hundred and forty-two.

An Ordinance relative to the lines of telegraph and other companies in highways.

Be it ordained by the City Council of the City of Laconia, as follows:

That the powers and duties of the Mayor and Council of the City relative to the location of the lines of telegraph and other companies in highways be and they hereby are delegated to the Board of Public Works of the City.

Passed and approved May 25, 1942.

R. W. SMITH, Mayor.

In the Year of our Lord one thousand nine hundred and forty-two.

An Ordinance relative to the City Solicitor.

Be it ordained by the City Council of the City of Laconia, as follows:

Section 1. Amend Section 3 of Chapter 10 of the Compiled Ordinances of 1941 by striking out said section and adding in place thereof the following re-numbered section:

Section 4. The City Solicitor shall receive in full for his services the sum of seven hundred dollars per annum, payable in equal quarterly payments. He shall also receive his reasonable traveling expenses when his attendance is required out of the city.

Section 2. Amend Chapter 10 of the Compiled Ordinances of 1941 by adding the following new section after Section 2:
Section 3. He shall perform the same duties for the Laconia Airport Authority as he is required to perform for the City of Laconia, and for the Mayor and Council of the City of Laconia; he shall perform the same duties for the chairman of the Laconia Airport Authority as he is required to perform

for the Mayor and the City of Laconia; and he shall perform the same duties for the individual members of the Laconia Airport Authority as he is required to perform for the individual members of the Laconia City Council, and for officials of the City of Laconia.

Sect. 3. This ordinance shall take effect as of March 24, 1942.

Passed and approved July 13, 1942.

R. W. SMITH, Mayor.

In the Year of our Lord one thousand nine hundred and forty-two.

An Ordinance entitled "Board of Assessors".

Be it ordained by the City Council of the City of Laconia, as follows:

Amend Chapter 19 of the Compiled Ordinances of 1941 by striking out the whole thereof and inserting in place thereof the following:

CHAPTER 19

BOARD OF ASSESSORS

Section 1. The Board of Assessors shall be paid in full for the services of its members the sum of twenty-five hundred dollars per annum, payable semi-annually. The chairman of said Board of Assessors shall receive nine hundred dollars per annum, and each of the other two members shall receive eight hundred dollars per annum. The services of the members of said Board of Assessors shall include the assessment of taxes, and taking the enrollment.

Sect. 2. This ordinance shall take effect as of March 24, 1942.

Passed and approved July 13, 1942.

R. W. SMITH, Mayor.

In the Year of our Lord one thousand nine hundred and forty-two.

An Ordinance relative to the City Treasurer.

Be it ordained by the City Council of the City of Laconia, as follows:

Section 1. Amend Section 1 of Chapter 18 of the Compiled Ordinances of 1941 by striking out said section and adding in place thereof the following section: Section 1. The City Treasurer shall receive in full for his services the sum of seven hundred dollars per annum, payable in equal quarterly instalments.

Sect. 2. This ordinance shall take effect as of March 24, 1942.

Passed and approved July 13, 1942.

R. W. SMITH, Mayor.

In the Year of our Lord one thousand nine hundred and forty-two.

An Ordinance limiting the use of Mill street bridge.

Be it ordained by the City Council of the City of Laconia, as follows:

Section 1. No vehicle whose gross weight including load is more than twelve thousand pounds shall be driven upon or over the bridge located on Mill street.

Section 2. The City Engineer shall cause a sign to be placed and maintained at each end of said bridge, which shall read as follows:

GROSS WEIGHT LIMIT

12,000 Pounds

Fine for Excessive Weight: \$20.

Section 3. Any person violating the provisions of Section 1 shall be fined not more than twenty dollars, for each offense.

Section 4. This ordinance shall take effect on its passage.

Passed and approved December 28, 1942.

ROBINSON W. SMITH, Mayor.

SCHOOL DEPARTMENT

SCHOOL BOARD

To the Mayor and City Council of Laconia:

Last year I did not submit a complete report as Chairman of the School Board giving as reasons, the completeness of the Superintendent's Report, the shortage of paper and the desire to keep city expenses to a minimum. These reasons seem to be equally applicable this year, so that an extended formal report will be omitted.

In transmitting to you the Superintendent's Report to the School Board your study and consideration of it are invited. There are many factors at work in this second year of war which are leaving their mark on our school system. Many of the changes being brought about are commented on in this report. I should like to emphasize a few.

Much more responsibility is being placed on our schools for care of pre-school children, as witnesses by the child care centers especially set up for children of working parents, and for adult education as evidenced by the growth of defense classes and apprentice training courses. The school buildings are being furnished more and more for purposes of defense, for lectures, meetings and other purposes not closely allied with formal education. Our Superintendent is called on to spend many hours working on these matters which a few years ago had constituted no part of our school system. The schools are expanding their functions in the community.

Another very significant problem is the loss of teachers, largely due to the opening up of better positions for them in industry or other school systems. Although it will always be impossible to pay salaries comparable to those paid in larger and wealthier places, and although we cannot keep abreast of the rising spiral of wages and prices, some attempt must be made this year to give greater rewards for loyal service. This will undoubtedly mean an increased budget.

An example of the special problems arising as a result of the war is the forced conversion of the furnace at the Practical Arts Building. Because it seemed desirable to make a permanent change to coal, a storage bin had to be constructed with a capacity of eighty tons, the total cost of bin and stoker being

over \$3050 which was not planned on or included in the budget.

Perhaps the above is illustrative of the many new problems which are constantly arising.

Respectfully submitted,

ARTHUR H. NIGHSWANDER,
Chairman

SUPERINTENDENT OF SCHOOLS

To the Laconia School Board:

This year's report is an attempt to summarize as briefly as seems reasonable the most important facts, conditions, and development in the public schools of the city during the past twelve months. Since the "City Report Year" and the school year do not coincide this report of necessity covers one twelve-month period for certain statistical reports and another period for the report in general—the period February 15, 1942, to February 14, 1943.

Although our country was officially at war with the Axis powers at this writing last year, this is the first report on our schools covering a full year of the grim realities of war in all parts of the globe. The impact of this great struggle has affected every aspect of the schools' plant, program, and personnel to an extent that has made this a very abnormal school year. This fact will be borne out by specific details in every division of this report.

Frequent mention in this report of the war's effects upon our schools should not be interpreted as an apology for what has or has not been done during the year. The public schools of the nation belong to the people and when the people are experiencing a national crisis the schools must share in that crisis since they are at the same time a vital cause and result of American life in war and peace. Many people foresaw a difficult year for schools in 1942-43, but the war years ahead will multiply and intensify the difficulties of the current year in education as in other phases of civilian life.

School Buildings, Grounds, and Equipment

Laconia houses its public schools in eight buildings well dis-

tributed throughout the city, except for The Weirs. One of the six elementary schools is of frame construction and their average age approximates fifty years. For the most part they are in a satisfactory state of repair and their furniture and equipment are of a standard comparable to the buildings themselves.

At their ages considerable effort and money is required to maintain and operate them. Prior to this year four of the six buildings were being unsatisfactorily and uneconomically heated by eleven hot air furnaces burning approximately \$2000 worth of anthracite coal yearly. This year the three furnaces in Batchelder Street School were replaced with a forced warm water system that is much more satisfactory in every respect and undoubtedly will prove to be more economical in operation and maintenance. This replacement is a first step in a four-year program of eliminating the antiquated hot air furnaces from all school buildings.

As the city plans for post-war community improvement definite provisions should be made for the consolidation of the existing six elementary schools (with federal assistance) into one, or at the most two, centrally located buildings of modern educational design. A case to support such consolidation can definitely be made on the basis of educational advantages if not on the basis of actual long-term economy.

The high school is much better housed from the point of view of comfort, convenience, economy and educational advantages. The seven-year old Practical Arts building housing our shops, Home Economics and Commercial Departments, music, and cafeteria is one of the best arranged and most completely equipped buildings of its type in this region.

The older building is in a good state of repair and reasonably adequate for present educational purposes except in its provisions for a modern program in health, physical condition and sports. The athletic field with many potentialities is greatly in need of rehabilitation and expansion.

Upon the order of the federal government the boiler in the Practical Arts building is being converted from oil burning to coal burning equipment at a cost of \$3050.

A considerable amount of money, time and energy is required each year to maintain at a reasonable standard seven school sites and eight buildings with a space equivalent of approximately one hundred fifty standard-size classrooms.

Financial Support

An examination of the financial statement for the school year of 1941-42 contained in this report reveals total expenditure of the School Department for all purposes of \$190,683.35. The major item of expenditure is salaries for teachers and other employees. The next largest item of cost is for debt service and debt retirement on buildings and equipment. In support of last year's budget the City Council appropriated for all purposes \$167,882.62, while the remaining \$22,800.73 accrued from dog taxes, tuition, reimbursements from the federal government covering costs of operating federal vocational classes, and miscellaneous sources.

The cost of operating schools during the current year 1942-43 is somewhat higher due principally to a marked increase in cost of practically all commodities and in an increase in salary costs resulting from the advancement of teachers on the salary schedule, plus a ten per cent. salary adjustment for all employees. A continuing rising market will require a somewhat larger budget for 1942-43 if present standards of plant, personnel, and instruction are to be maintained.

As greater demands for service are made on local schools by the federal government and as increasing amounts of local wealth are assessed by the federal treasury, more public interest should be taken in the national movement in support of federal assistance for education.

Health and Attendance Services

Effective services in health and attendance are essential to the success of the school program. These services to be effective require the understanding and co-operation of health and attendance workers, teachers, pupils, parents, doctors, welfare, and social workers.

Besides the customary examination of eyes, ears, teeth and weight of all pupils, the continuous vigilance against communicable diseases, and the ministering to aches, pains, bruises, infectious and general ailments of pupils and teachers, our health program includes positive action toward physical development of growing children through school feeding. Well prepared hot lunches supplemented by milk, and cod liver oil where needed, undoubtedly are making an important contribution to the physical welfare of those children who avail themselves of these services.

An adequate health program in the schools of a city the size of Laconia requires the services of more than one full-time worker—the school nurse. At least the part-time services of a physician and dentist are essential and the general health program should be closely co-ordinated with that part of the school curriculum dealing with health instruction and physical development.

It is expected that a trained nurse will be employed for full-time work in the nursery schools as soon as federal funds for their partial support is made available. However, this action will not increase our regular health personnel or directly improve the school's general health program.

The mental hygiene clinic being held in Laconia each month of the school year by Dr. Anna Philbrook and her staff from the State Hospital at Concord is making its contribution to the mental and emotional wellbeing of our pupils and their parents.

Personnel

Pupil

A comparison of enrolment figures for elementary pupils for the past two years shows no appreciable change in total numbers. The larger enrolment anticipated for this year due to a gradual influx of war industry families has not been realized. Although several new children have been enrolled in our schools during the year a comparable number have moved out of the community.

The junior high school enrolment for the two-year period presents a picture similar to that of the elementary schools. However, this year's total enrolment in all day schools is slightly less than last year's because of a minor decrease in enrolment in grades nine through twelve where in normal times there should have been a slight increase.

This decrease in senior high school enrolment is the result of more than a score of boys leaving for various branches of the armed forces and early admission to college and of several other boys and girls dropping out to take advantage of unusually attractive work opportunities. Present indications are that the trend away from senior high school will continue throughout the war and war production period in spite of all efforts on the part of the school to prevent it.

Enrollment in adult classes for the year is considerably higher due to the large number of trainees enrolled in vocational classes for war industry. Few people availed themselves of regular evening classes due in part, at least, to more extensive and intensive employment conditions in and about Laconia.

Instructional, Supervisory and Administrative Staff

The only change in the number of regular full-time instructional, supervisory and administrative staff over last year is the addition of one teacher of a revived class for younger pupils formerly enrolled in regular classes of the city who need special attention, bringing the staff total to eighty. By including other employees such as the lunchroom workers, attendance office, and janitors the department's entire personnel numbers one hundred eight employees.

If requested federal aid for nursery schools is received the number of nursery school workers will be immediately increased and the entire school personnel will total approximately one hundred twenty before the close of the school year.

This year the nation has experienced an unprecedented loss and turnover of teachers. Thousands of teachers have left the profession to be married, to go into the armed forces, industry, government, and other services closely related to the war. Larger salaries outside the schools is one reason for the loss of many teachers from the profession and that same reason accounts for an almost continuous stream of position changing within the profession.

Laconia schools have experienced this national condition in their loss of seventeen teachers during the year ending January 30, 1943, through marriage, illness, retirement, enlistment in military service, industry and better teaching positions outside Laconia. This figure represents a turnover of $21\frac{1}{2}\%$ of the total teaching personnel and more than twice the normal turnover.

The factors which have been operating to create this condition in the teaching profession and the schools this year will unquestionably be felt more forcibly next year and throughout the war period. Of course these problems of personnel and performance are not peculiar to schools, but are being experienced by other institutions, businesses, and industries.

Although at no time since last spring has our corps of teachers, lunchroom workers, clerks, and janitors been complete, the situation in Laconia schools has not been critical. However, the unsettled situation in the homes, among pupils, particularly in senior high school, and among the adult personnel has made the schools' task considerably more difficult and somewhat less effective.

The Board's action to rescind its regulation against the employment of married women teachers and to provide a 10% cost of living adjustment in salaries has helped appreciably in retaining employees and in securing replacements. A further adjustment in salaries to bring them more closely into line with other salaries and wages will be absolutely necessary for next year. The Department's existing plan for teacher compensation is sorely in need of revision not only to raise the general level of pay but to make it more equitable and educationally sound.

The purpose of the Board's recently revised requirement of regular and reasonably frequent summer school attendance or its equivalent is to give teachers some guidance in their individual programs of inservice training and to insure the community of a corps of teachers who are continuously upgrading themselves educationally and culturally. The tempo and degree of change in educational thought, outlook, and methods makes frequent contact with educational centers and materials imperative for the teachers of a city that wants to keep step with progress.

Curriculum

Broadly interpreted the schools' curriculum encompasses all of its activities within and outside its classrooms. However, for convenience and clarity, discussion for the moment will be confined to the program of studies in the elementary schools and the high school.

Although the program in the elementary schools has experienced no appreciable change in methods and organized courses during the year, the instructional materials, teacher-pupils activities and a different treatment for subject matter all reflect a growing interest on the part of teachers and pupils in the war and its bi-products of production, transportation, and communication, and an awareness of their part in the struggle.

These new materials, new interests, emphases and activities are most noticeable in the fields of supplementary and recreational reading, current history, science and health and geography. Expression through art, music, discussion, and free play reveals that these youngsters from the kindergarten through grade six are experiencing a tremendous extension of their educational and cultural horizons.

Teachers on all grade levels are searching for effective ways of giving meaning and appreciation to the news and important concepts of global geography, international relationship, and a three-dimension universe. An optimistic view of the post war period suggests a revolutionized world of travel, trade, and political and social institutions. An adequate educational program must prepare its learners for their places in the next era of our evolving civilization.

Changes during the year in the upper levels of the high school program are considerably more numerous, clearly defined, and radical than in the elementary schools. The impact of the war on the interests and activities of high school pupils, especially juniors and seniors, is particularly marked. It seems clear at this point that the major function of secondary (high school) education for the duration is to prepare its older boys and girls for effective participation in war and war related activities. Senior high schools must develop quickly in their youth the physical and spiritual stamina and skill necessary to take over immediately the responsibilities of adults in every phase of national life in wartime.

New and expanded courses in elementary aeronautics, Spanish, physical education, and new emphasis given mathematics, science, current history and vocational subjects reveal the high school's attempt in the brief course of a year to adapt to its new responsibilities.

The demands made by a changing program of studies on pupils and teachers and the continuous turnover of pupil and teacher personnel have operated to reduce somewhat the normal program of extra-curricular activities. This is particularly true in the field of interscholastic activities where reduced transportation service has contributed markedly to the curtailment of the normal program.

During the coming year the high school must continue to adapt to the needs of its pupils, in light of the needs of the

times, by helping them develop good citizenship, physical well-being and educational and vocational competence. One specific step toward the improvement of the high school program that should be taken immediately is the institution of a comprehensive program of health and physical education that would really count in the all-around development of every boy and girl in high school, then as soon as possible the program should be extended downward in the elementary schools. The organization and administration of such a program will require the services of a person qualified by broad professional training and experience and unusual personal qualities, assisted by regular and special teachers qualified to handle various phases of the program.

This is a program which would require several years to develop to its maturity, but its foundation should be laid and a beginning made next year.

Special Activities Associated with the War Effort

An examination of the school's curriculum in its broad meaning reveals the fact that the pupils and teachers are very much a part of a community, a state, and a nation engaged in war. Not only in the schools but in the community they have found many ways to contribute directly and indirectly to the war effort on all fronts.

During the course of the year most of the faculty and many of the older boys and girls have had active and important parts in Civilian Defense activities of the city. In some cases operating alone and in other cases working co-operatively with outside organizations the schools have given training in Air Raid Protection, carried on salvage drives for scrap paper, rubber, keys, metal, and tin cans, bought war stamps and bonds, through an organized program, distributed printed materials for Civilian Defense, and assisted in the harvesting of apples and the gathering of sap. At the present time groups of high school pupils are being trained to render various kinds of community service, such as care of small children after school hours.

The schools, assisted by volunteer workers, have registered the public for sugar, gasoline and fuel oil rationing and soon will register all consumers for the rationing of processed foods and meats. These registrations have been carried on with a minimum loss of school time and with considerable satisfaction

on the part of the schools over the way in which the public responded to the program.

The schools have continued and expanded the penny milk and school feeding programs as a contribution to the healthful development of growing children and a convenience to mothers who are engaged in essential work outside the home.

The federally supported classes for the training of adult workers for war industry instituted in 1940 have run continuously throughout the year and have trained more men and women than in any previous year.

The schools have carried the burden of providing day care for pre-school children (ages two through five) of working parents by re-organizing the WPA nursery schools, modifying and extending the service, and requesting federal assistance necessary to continue operating two centers and to open a third center. As soon as the assistance, which is practically assured, is available a third center will be opened in Lakeport and the personnel will be increased sufficiently to give complete day care to approximately ninety children of working mothers during a sixty-six hour week. This service is essential to the welfare of the children, parents, community and to local industry and should be continued throughout the war period.

Attention by the schools and other organizations of the community should be given to the growing problems of out-of-school care of younger school children. If this problem isn't properly handled, it is quite likely that it will soon manifest itself in various forms of bad citizenship and juvenile delinquency.

The year just closing—a year of war being fought abroad but reaching across the threshold of every home—have given the public schools of the country a rare opportunity to prove their importance to community state and nation. They, like ship building and plane production, have met the challenge of unprecedented war demands; at the same time they are helping to build bodies and minds for the kind of peace for which the war is being fought by the United Nations.

C. W. McDERMITH,

Superintendent of Schools

LACONIA HOSPITAL

To the Honorable Mayor and Members of the City Council:

The Laconia Hospital in 1942 gave better service to more patients than in any previous year.

Because of our growth and our determination to serve the public more adequately we can always use additional funds to advantage.

Contributions to the Laconia Hospital are investments in the future of Laconia. This past year our friends have been most generous and we greatly appreciate their gifts. We also acknowledge with sincere thanks the contributions of the City of Laconia and surrounding towns. These gifts together with the continued assistance of the Hospital Aid Association enables us to have in Laconia one of New England's fine hospitals.

Respectfully yours,

ARTHUR D. O'SHEA,
President, Laconia Hospital Assn.

BOARD OF HEALTH

To the Honorable Mayor and Council:

The work of the Board of Health has gone along without any unusual happenings. There have been no serious outbreaks of epidemics, as yet.

The milk inspection must be continued as it is especially important, under the present living conditions, to see that suitable milk is supplied for the consumer.

Dr. Earl J. Gage, the Secretary of the Board of Health, was called into the Service in July, 1942, and Dr. J. R. Perley was appointed to take over his position until he returns from the Service.

Respectfully submitted,

J. R. PERLEY, M.D.,
Secretary.

PUBLIC HEALTH NURSE For Year 1942

Number of visits made during year	1,736
Medical	1,215
Surgical	363
Maternity	1
Prenatal	4
Post Natae	18
Home visits (instructive)	135
Receipt for city cases	\$351.25

JULIA PERIARD, R. N.

MILK INSPECTOR

Milk inspection work was carried on as in 1941. There were fewer complaints of poor quality milk than in previous years.

A decline in the number of stores licensed to sell milk was noted in 1942.

1941—79 stores. 1942—61 stores.

Stores were checked for source of supply and refrigeration facilities.

School milk samples were tested weekly in 1942.

New cream standards made necessary many checks on cream samples.

Many small producers dropped retail sales and some producer-dealers changed to supplying dealers only.

GENERAL MILK INSPECTION STATISTICS

Total samples analyzed	654
Milk	542
Cream	70
Skimmed milk	11
Other dairy products	18
Samples Unsatisfactory—Milk and Cream	
Low butter fats	13
Low solids	5
High bacteria	21
Dirty bottle and cap	33
High sediment	43
Inspection Details:	
Stores and restaurants inspected	74
Dairy inspections	59
Visits to dairies, etc.	251
Licenses:	
Licenses granted to stores	61
Licenses granted to producer-dealers	42
Licenses granted to dealers	5
Licenses held up for improvements	8
Money received from stores and restaurants	\$120.00
Inspection fees from dealers	22.00
Inspection fees from producer-dealers	148.00
	<hr/>
Total	\$290.00

Respectfully submitted,

F. A. SMITH,
Milk Inspector.

FIRE DEPARTMENT

February 15, 1943

To the Honorable Mayor and City Council:
Laconia, N. H.

I hereby submit my report as Fire Chief for the year ending February 15, 1943.

During the past year, the Fire Department responded to thirty-three box alarms, one hundred fifty-five telephone calls, one false alarm and one Engineer's call.

The total insurance paid on fires was \$52,756.68.

We have made several repairs to the buildings. The interior of the Laconia and Lakeport stations were painted. The only cost to the city for these improvements was the cost of the paint. A new chimney was built at the Lakeport station. The heating system was overhauled and put in working order. The upstairs rooms were painted and new linoleum was laid on the floors.

All of our Fire Apparatus is in good condition. We will have to have new storage batteries in the trucks and tires and inner tubes will have to be purchased this coming year.

The Fire Alarm System will have to be changed from the old line poles to the new ones installed by the Public Service Company.

Fire Equipment is very hard to get and we are fortunate that we are at present so well equipped.

Respectfully submitted,

ARTHUR W. SPRING

List of Fires Since January 1, 1942

From January 1st to July 1st

The Fire Department responded to six box alarms and one false alarm.

Ninety chimney fires

Twenty grass fires

Three coal stove explosions

One gas leak

One pressing board

One hen house

One attempted suicide

Six flooded oil burners

Two fires resulting from smoking in bed

One child's clothes caught on fire

Three cases for oxygen tanks

One fire in an unoccupied house where carpenters were working resulting from an overheated stove left burning at night January 18, at 25 Varney Ct.—Loss \$2,000.00

Ninety-two chimney fires which insurance was paid \$8.00 to \$100.

July 1 to January 1, 1943

Smoking in bed

Laundry fire

Overheated furnace

Oily rags

Spontaneous combustion

Fire in bed clothes

Fire in clothes closet

Defective chimneys not cleaned

Leaking oil furnaces

TRUST FUNDS

REPORT OF TRUSTEES

To the Honorable Mayor and City Council, Laconia, N. H.:

On account of the low interest rate, again we advise that a minimum of \$200.00 be left as a trust fund.

Work to be done is carefully considered and funds are conserved as much as possible. Only the very necessary work is done.

Flowers are put on the lots Memorial Day in cases where the funds are available and adequate.

The trustees welcome any suggestions or criticisms.

CHAS. F. AYERS,
Secretary-Treasurer.

EDGAR B. PRESCOTT.

LIBRARY TRUSTEES.

To the Honorable Mayor and Members of the City Council:

The trustees feel that the librarian's report to the trustees is so complete that further comments would be unnecessary. However, one point should be in mind, and that is, the income from the various trust funds is gradually being reduced, owing to the lower rate of interest. This lowering of income from the funds will necessarily require a greater contribution from the city. The library and grounds located in such a prominent place in our city should receive liberal financial assistance to maintain their present state of attractiveness.

The trustees express their appreciation to you and your council for your cooperation with us.

Respectfully submitted,

HENRY T. TURNER,
Chairman, Board of Trustees

LIBRARIAN

To the Board of Trustees of the Laconia Public Library:

I herewith submit my annual report as librarian of the Laconia Public Library for the year ending February 15, 1943.

This past year the Library and the Board of Trustees suffered a loss in the resignation of Judge Frederick W. Fowler, who served faithfully as a trustee for nineteen years. His many years of service are deeply appreciated. Mrs. Dorothy Talbot of Lakeport was appointed to the vacancy on the Board. On April 15, Miss Mary P. Lane, recently of Barrington, Rhode Island, became librarian to succeed Miss Hazel J. Clark, who resigned because of ill health. Miss Lane, a graduate of Wheaton College and of the Simmons College Library School, came to Laconia after fourteen years' experience in college and public libraries in New England.

In the early spring, the library served as a collection center for books in the Victory Book Drive. Under the chairmanship of Mrs. Robinson W. Smith, Laconia stood at the head of the list of places in the state, reporting 3,829 books collected, sorted, and sent to headquarters to be distributed to the soldiers and sailors in the service. Other activities undertaken by the library include story hours for the children, both at the Gale Memorial Library and at the Goss Reading Room

in Lakeport. During the winter, an attendant was on duty at the Laconia library for two hours every afternoon and on Saturday mornings to help the younger children in the selection of books. Children's Book Week was again celebrated this year with the usual display of children's books in the main entrance hall.

Memorial Hall was open to the public during the month of August with an attendant. There was an exhibition of shawls loaned by the late Daisy Deane Williamson, who gave a talk on the different kinds of shawls. Miss Beverly Seaverns loaned some of her dolls, which were on exhibition the second week, and during the last two weeks of the month the Laconia Art Group exhibited their work. Open house for the mayor and city council was held one evening, at which time Mr. Russell Tobey of Concord talked about and showed pictures of the state parks. Although attention was centered on the activities in Memorial Hall during this one month, it should be noted that the hall is in use almost constantly throughout the year. Various organizations hold their meetings there regularly and it is hoped that more groups will avail themselves of this privilege.

Several valuable contributions have been received this past year. Through the generosity of Mr. Edward J. Gallagher, editor and publisher of the Citizen Publishing Company, a complete file of the Evening Citizen from 1926 to date was bound and given to the library where they are preserved for future reference. Mr. John M. Cox of Lakeport presented the library with a three-volume compilation of records of births, marriages and deaths from 1848 to 1889, which were taken from the Lake Village Times and the Laconia Democrat. Mrs. Pearl Wilcomb of The Weirs presented the library with a valuable collection of miscellaneous Chinese objects which were collected by Major Owen V. Wilcomb on his travels. These were placed in a case and are now on exhibition at the library. A collection of minerals and the case in which they are displayed was given by Mrs. Martha Prescott of Laconia. General William F. Knight, long associated with the public library prepared and presented a complete history of its origin in Laconia to the present time. This history was written in his own handwriting and in his ninety-fifth year. This record in his own handwriting is one of the outstanding features on display in Memorial Hall. The G. A. R. of Lakeport gave to the Goss Reading Room their charter, flag and records,

which are on display there.

There have been improvements on the inside of the building. A new desk was purchased for the office as well as a typewriter stand, and in the basement, the rest room for the employees was refurnished and decorated.

The library this year, more than ever before, is showing the effects of the unsettled conditions of the country. The circulation of books has decreased—7,046 fewer books being loaned out this year than were loaned last year. As large as this figure would seem to be, it actually represents a drop-off of 10 per cent—a figure extremely small for a critical period such as this, when we have sent so many of our boys into the armed services, and when many hundreds of the remaining population are working such long hours in war work, that their spare hours for reading are naturally restricted. However, this decrease is more than offset by the increase in the use of the reference room and in calls for material to be looked up. The Newark system of charging books was instituted in the spring, thus bringing the library up to the standard set by the American Library Association. The library in Laconia and the reading room in Lakeport were open on Sunday for two months in the winter, but the small number of readers did not seem to warrant the continuance of the Sunday opening and this was discontinued in January.

The personnel of the regular staff has remained unchanged. The W. P. A. worker and one of the part-time helpers left the library in the spring. Two of the regular staff, Mrs. Margaret K. White and Miss Marilyn Welch, attended the library institute at the University of New Hampshire for two weeks. The librarian and members of the staff have attended the Book Fair in Boston and library meetings in the state.

Last year the Gale Park was transferred from the City Park Commission to the trustees of the library and has been maintained in its usual attractive condition. The V garden was installed on the lawn on the Church Street side in which the flowers were changed three times during the summer. This proved to be an inspiration to the townspeople at this particular time. The other flower beds were maintained at their usual attractiveness for the pleasure of the public. The flag has been maintained through the summer and will continue to be run up every day. A few new flower urns were installed around the grounds.

To all the members of the staff I wish to express my appreciation for their loyalty and cooperation, and I wish to thank the Board of Trustees for their interest and help on all problems connected with the administration of the library.

Respectfully submitted,

MARY PHILLIPS LANE,
Librarian.

A. W. DINSMOOR,,
Treasurer.

BOARD OF PUBLIC WORKS

Laconia, New Hampshire,
February 15, 1943.

To The Honorable Mayor and City Council:

We hereby submit the forty-second annual report of the Board of Public Works, including the detailed financial statement covering the operations of the City Engineering, Street and Sewer Departments, during the past year.

A copy of the detailed report and recommendations of the City Engineer, as submitted to us, is included here and we suggest a careful study of the same. In our opinion, a word of praise for the Engineer and his assistants and the personnel of the department is in order at this time for the faithful performance of their duties during a year of unusually trying conditions.

The routine maintenance work has been carried on during the year, as far as funds would permit, and such special work as was authorized has been completed, as far as possible.

We were unable to procure any asphalt road oil during the season, on account of restrictions, but were enabled through approval of our applications to the Public Roads Administration, made through the State Highway Department, to secure a quantity of tar, which, while more expensive in cost per gallon, gave excellent results where applied. It now looks as if similar conditions would prevail the ensuing year, and we are already preparing detailed applications for authority to purchase this material for use in preserving our surface treated mileage.

On account of the decreased revenues from motor vehicle funds and the gasoline road toll, it is unlikely that any funds from the State for State Aid Construction, can be obtained in 1943, but it now seems as though the T. R. A. funds for the improvement of Class Five Roads will be available, and if this is the case, we believe the City should co-operate and raise its share so as to continue work on these lines.

We would recommend the appropriation of adequate funds to carry on the routine maintenance, winter expenses and the customary all year work, including scavenger service, rendered by this Department.

The following is the schedule recommended for the ensuing year:

General Repairs and Maintenance	\$19,000.00
Winter Expenses	26,500.00
Sanding Sidewalks	1,800.00
Sewer Maintenance	5,200.00
City Engineering	2,000.00
Maintenance of Macadam	8,100.00
Collection of Ashes, Waste & Dump Rentals	8,500.00
Cleaning Catch Basins	1,600.00
Drain Repairs	1,150.00
Cleaning Streets	6,300.00
Bridge Repairs	600.00
Cutting Trees, Grass, Brush	1,800.00
Insurance	600.00
Recovering Walks	2,300.00
Street Tarring	9,500.00
Purchase of Equipment	2,500.00
City's Share T. R. A.	912.83
	<hr/>
	\$98,362.83

Respectfully submitted,

HARRY L. SMITH,
OSCAR L. HOYT,
WILLIS G. WATSON.

Board of Public Works.

**STREET, SEWER AND ENGINEERING
DEPARTMENT**

To The Board of Public Works:

Gentlemen:

The following is presented as the report of the Public Works Department for the year ending Feb. 15, 1943.

*Indicates Overdraft

DRAINS

The 28 miles of drains have been carefully maintained, minor changes and repairs having been made to cross drains, catch basins and manholes. A drain extension of 186' of 10" V. C. pipe was laid on Holman Street.

There are still a number of drains built years ago that are not sufficiently large to take the flow of water reaching them. These drains are on the following streets: Court Street at Durkee Brook, Gale Avenue, Dartmouth and Harvard Streets and South Main Street at Wyatt Park. The reconstruction of the one located at Wyatt Park is urgently needed

in order to check the ponding of surface water on Champlin and Center Streets, which now occurs, as the result of the filling in of the park area.

CLEANING STREETS

Each year the cost to maintain the neatness of our streets increases. Private contractors, who haul waste from stores and office buildings should cooperate with this department by covering their loads so that their contents—paper, cartons and wooden boxes will not scatter over city streets and abutting property.

STREET TARRING

Government restrictions made it impossible to surface treat our gravel roads with Asphalt Road Oil. However, we were allowed to purchase tar, which, although costs more per gallon than the asphalt, creates a thicker wearing surface that does not require such frequent resurfacing.

Our appropriation was sufficient to apply 42,621 gallons to 213,105 sq. yd. which is approximately one-half our total street area. The remainder plus a number of recently laid out roads should have similar attention this year.

MAINTENANCE OF MACADAM

The spring of 1942 found the macadam streets in good condition generally. There was little damage to them from frost, necessitating but a small expenditure for patching.

15,030 gallons of tar was applied at the rate of one-fourth gallon to the square yard which was covered with pea stone and sand, then honed and rolled.

SANITARY SEWERS

710' of 6" sanitary sewer was built on Pine Street Extension to Lafayette Street at a cost of \$1,895.55. Because of the scarcity of man-power, excavation was made by a power shovel using a trench digging attachment.

An appropriation was made for a sanitary sewer on Winnicoash Street and it was planned to use this shovel to make the trench excavation but its service was needed on an airport construction; there being no other help available, the sewer was not built.

Money was made available for a sanitary sewer on Lake-

side Avenue Extension, near the Weirs pumping station. This involved the construction of a short section of gravity sewer from Lakeside Avenue to an existing sewer on Centenary Avenue. This was built. The installation of the force main and the sewage ejector station, north of the pumping station, has been made impossible by our inability to obtain a sufficiently high priority to purchase required materials. I would recommend that the balance of these appropriations be carried over until 1943 with the expectation of completing these projects.

The usual maintenance work of flushing and cleaning of the 32 miles of sanitary sewers was completed. No serious stoppages or damage occurred.

COLLECTION OF ASHES AND REFUSE

As was previously contracted, Mr. Hamilton continued the collection of refuse and waste until May 10th. At that time because he notified this department that he could no longer continue at the contracted price, the job was put up for bids. Mr. Hamilton, being the only bidder was awarded the contract for the ensuing year at an increase in cost of \$1,300.00. In November, he filed a notice with this department that he wished to be released as he was unable to fulfill his contract because of lack of sufficient help. The department then took over the work and has been carrying it out by force account, which arrangement has been satisfactory to date.

Due to an increase of population and to the many conversions of heating units from oil to coal there has been a tremendous increase in the amount of collection during the past year.

I wish to call the attention of our residents to the Board of Public Works Order No. 3 which specifies the type of material to be collected and the proper containers to be used. Paper cartons are not satisfactory substitutes for garbage cans or barrels.

A substantial increase in this appropriation will be necessary to maintain the present service.

PLUMBING

Eighteen new house connections to the sanitary sewer were made during the past year. One hundred and five per-

mits for plumbing additions were issued and the work inspected by this department. Three examinations and two new plumbing licenses were granted.

BRIDGES

Two small wooden bridges on the Hillard road are in poor condition and will require replacement this season. The concrete abutments of the Main Street bridge are scoured to some extent and will need attention.

With the exception of minor repairs to the wooden bridge on Mill Street little work on bridges was required during the year.

SIDEWALKS

Only 2,339 square yards of sidewalks were re-covered and no new construction of asphalt walks was done because of the shortage of materials.

Walks were graded on Garfield and Sheridan Streets and were given an application of stone dust to the surface and are ready to receive an asphalt top when the funds and material are made available.

WINTER EXPENSES

The continuous sanding demanded by the unusual weather has consumed a large portion of the appropriation made for winter expenses.

A great deal of credit is due the curtailed force of the street department for its faithfulness and cooperation at all times.

GENERAL

Paugus Road, which was laid out and partially constructed in 1941, was completed by an expenditure of \$781.60 by the city and \$3,126.40 by the state from Town Road Aid funds. The drainage was completed, the road brought to established grade, gravelled and given a surface treatment of calcium chloride.

North Street Extension, a continuation of the Paugus road to Massachusetts Avenue was also graded, drained and surfaced treated at an additional cost of \$674.63.

From the balance of State Aid Construction of \$252.95, carried over from last year, \$95.19 was expended on Elm Street in removing a wall and cutting back and sloping banks. The balance of \$157.76 in this account should be carried over to complete the grading of shoulders and banks.

Cement concrete curbs were built along both sides of Dewey Sereet, from Gilford Avenue to the High School property and a short piece om curb was laid on Grant Street.

The construction of concrete curbs should be considered as a necessity as it is the only manner of retaining a sidewalk shoulder and protecting it from motor vehicle traffic.

Funds were provided for the purchase of a used Ford truck and a Ross one-way plow. Two of our trucks are old and are costly to keep in repair and should be exchanged as soon as the present emergency is over.

I would strongly urge that appropriations for general maintenance and special work be made as early as possible so that plans can be made for distribution of the work throughout the season.

Respectfully submitted,

ARNOLD J. O'MARA,

City Engineer, Supt. of Streets and Sewers.

CITY SOLICITOR

To the Honorable Mayor and Council:

The two legal suits mentioned in last year's report, have now been disposed of.

The suit brought by the City Against the Town of Belmont was decided in favor of the City. This suit involved the question as to whether the City of Belmont was liable to support a certain relief recipient. Since the relief recipient involved required continuous medical assistance this decision released the City from considerable expense.

The suit against Joseph J. Morin for cutting down a shade tree on Pleasant Street was decided in favor of Mr. Morin by the New Hampshire Supreme Court. The City Solicitor and the Attorney General for the State each filed a brief supporting the city's position, and the City Solicitor argued the case. In general, this decision means that the City has no title to trees growing in streets laid out in the usual manner, even though the City may have taken care of such trees for more than twenty years. Consequently, although the City has a right to take care of such trees, it cannot prevent abutting owners from cutting them down. The City does have the right, however, to purchase such trees or to take them by condemnation if the abutting owners refuse to sell. Although such an undertaking would be rather difficult and would involve some expense, since over eight hundred trees are involved, it is suggested that the Mayor and Council give it serious consideration. Any such consideration of that question should, however, await the termination of the 1943 session of the State Legislature, since it is expected that the State Forester will seek certain legislation relative to this matter. It was the purpose of the State Forester, in asking the City to appeal this case, to obtain a decision definitely passing on the status of such trees and then to ask for any legislation found desirable.

The law provides that any young shade tree planted within the limits of a public highway by the tree warden, with the approval of the mayor, shall become the property of the city, provided the abutting owner is duly notified and does not object. It is recommended that this procedure be followed in the future, when the tree warden sets out young shade trees,

and that proper records be kept. It is further recommended that the Mayor and Council consider the possibility of a long range plan for setting out young shade trees in accordance with this procedure.

Suit was brought by the New England Culvert Company against the City and against William T. Marsh to recover the price of a culvert bought by Mr. Marsh and used in the construction of Shore Drive. Mr. Marsh claimed that Mr. French authorized him to charge this culvert to the City. A trial was had, and a verdict was rendered in favor of the City and against Mr. Marsh.

There is only one suit pending in which the City is involved. That is a suit brought by Harold Tefft at the present term of court to recover wages which he claims the City owes him for being a driver in the Fire Department.

Your Solicitor has continued his practice of attending meetings of the Mayor and Council in order to pass on any legal questions that may arise, and to draft ordinances when necessary.

Legal assistance has been rendered to practically every City Department. A good number of legal opinions, both written and oral, have been furnished. Assistance has been rendered the Overseer of Poor in collecting a sizeable amount due under an arrangement with a relief recipient. Assistance is now being rendered the Police Department in recovering compensation for the damages to the police automobile. The usual number of deeds, leases and agreements have been drafted.

Legal help has been rendered the Laconia Airport Authority when requested, in accordance with the ordinance passed by the Mayor and Council during the year. Several easements were acquired in behalf of the Authority for the instalation of obstruction lights.

The Revised Ordinances are now being printed, and it is expected that they will soon be ready for distribution.

Respectfully submitted,

WILLIAM W. KELLER,
City Solicitor.

POLICE DEPARTMENT

POLICE COMMISSIONERS

To the Honorable Mayor and City Council:

We respectfully submit the report of The Chief of Police George N. Hubbard for the year ending January 31, 1943. We respectfully urge your careful reading of The Chief's report as it shows in detail the services rendered by the department.

The financial report shows that the department overdrew the appropriation. This was due to payments made necessary because the police car was in an accident in which two officers were injured and the car so badly damaged that it could not be repaired. The department expects to be reimbursed by the insurance company. However, the amount did not show in financial report because insurance company has been holding up this payment until the two officers are completely recovered. If this insurance claim had been reflected in financial report it would have shown that less money was spent than was appropriated.

Officer Joseph Tuttle joined the navy several months ago. We admire his patriotism but were very sorry to have him leave as he was an efficient and reliable officer.

CHARLES J. PITMAN,
CLARENCE E. ROWE,
FORTUNAT E. NORMANDIN
Police Commissioners.

Clarence S. Newell, treasurer, cash	4,083.05
	<hr/>
	\$4,107.47

Respectfully submitted,

EARL FLANDERS,
Clerk.

OVERSEER OF THE POOR

To the Honorable Mayor and Council
of the City of Laconia:

Gentlemen:

It is my privilege and duty to submit herewith my report as Overseer of the Poor for the year ending February 15, 1943.

The amount appropriated for support of poor for year ending February 15, 1943 was \$16,000.00. Received from refunds \$2,666.19, total receipts \$18,666.19, amount unexpended \$5,835.00, which was transferred to the excess and deficiency account by direction of the City Council.

Respectfully submitted,

A. C. S. RANDLETT,
Overseer of the Poor.

PARK COMMISSION

To the Honorable Mayor and City Council:

As secretary of the Park Commission, I submit this report for the year ending December 31, 1942.

The personnel of the Park Commission is as follows: Chairman, Mr. Richard Shelley, Dr. C. E. Rowe, His Honor, Mayor Robinson W. Smith, Mrs. Marion Holt, Mrs. Marjorie Philbrook. Meetings were held April, May and November of this year to present the Budget to the Council and to conform to the rules and regulations laid down by the Budget.

The playgrounds were in charge of the following: Leavitt Park, Mr. Charles Peterson and Miss Anna Arnell; Wyatt Park, Miss Marjorie Whitehouse; Opechee Park, Mr. John Hayward, Miss Jessie Dutrizac and Mrs. James Leh. Each playground carried out the regular schedule of supervised games, tennis and waterfront activities. Mr. Joseph Lacey served as Red Cross life saver on duty for ten weeks every evening and Sundays at Opechee Park. Two new outdoor fireplaces were added to Opechee Park and were in constant use all the year.

Each park maintained its Community House and carried on programs of dances for the young people, socials and card parties for the older ones. This year the Hi-Y Group and the Y. W. C. A. Girls used Opechee Park Community House every other week for their programs and activities. Four dances for Service Men have been held and Wyatt Park served meals to Service Men. Leavitt Park has carried out its help to the Community in innumerable ways.

Skating rinks at Leavitt Park, Opechee and Wyatt and Casino Square were maintained for an eight-week period this past winter.

The City of Laconia is justly proud of its Park Program. In these times of much needed activity outlets for both young and old the playgrounds, winter and summer are a very vital part of the City of Laconia.

MARJORIE O. PHILBROOK,
Secretary, Park Commission.

	\$884,419.43

Respectfully submitted,

CLARENCE S. NEWELL,
City Treasurer.

MUNICIPAL REGULATIONS

for payment of bills against the city

All bills against the city must be approved by the persons authorizing the charge, and unless this is done, no action can be had upon the bill by the committee on accounts and claims, and no order will be given for its payment.

When bills are certified to as above, and left with the City Clerk not later than Thursday at 12 o'clock M., preceding the last Monday of each month, they will be audited by the committee on accounts and claims, and if approved by them and allowed by the Council, will be ready for payment on the following Wednesday, at the office of the City Treasurer.

Meetings of the committee on accounts and claims are held on Friday preceding the last Monday of each month at 7:30 p. m., at the City Clerk's Office.

CITY EXPENSES

For the year ending February 15, 1943

Being an itemized account made up from the books of City Clerk of the payments made by the City Treasurer on account of running expenses.

The arrangement of the details of expenditures which follow is intended to give such information as is desired by the public.

Items of payments to the same person or firm at different times are included in the aggregate amount given, if paid for the same objects. Efforts have been made to ascertain and pay all approved bills to date.

COUNTY TAX

Appropriation	\$86,376.60
Paid Ralph C. Kimball, treasurer, county tax	\$86,376.60

AUDITOR

To the Honorable Robinson W. Smith, Mayor,
and the City Council of Laconia, N. H.:

Gentlemen:

Having completed the audit of the financial accounts of the City of Laconia for the fiscal year ended February 15, 1943, I present the following statements showing the financial condition of the City as of that date.

Exhibit I—Appropriations Account year ended February 15, 1943.

Exhibit II—Excess and Deficiency Account.

Exhibit III—Balance Sheet as of February 15, 1943.

Exhibit IV—Serial Debt as of February 15, 1943.

The following items appearing in the balance sheet are commented upon as follows:

Cash **\$28,356.91**

This cash balance was verified by the various bank statements with the records of the City Treasurer and compared with the ledger of the City Clerk; all receipts and expenditures of the City Treasurer were properly checked with the different departments of the City; an audit of each monthly draft is made by the City Auditor as a final check upon all bills before payment is made by the City Treasurer. All Bonds, Notes and Coupons paid are carefully checked with the records of the City Clerk.

Property Sold to City for Taxes **\$13,783.36**

Once again this amount is smaller than for the previous year and every effort is to be made during the coming year to have these accounts reduced to a minimum; as the property sold to city for taxes becomes less each year and more taxes are redeemed each year as a result of existing conditions, it seems quite possible that these old accounts can be cleared from the books before the completion of another year.

Accounts Receivable—Taxes **\$46,406.47**

The Collector's record of the unpaid taxes was examined by me as well as all taxes paid: all payments were checked with the records of the City Treasurer.

Warrants from the Board of Assessors to the City Tax Collector covering the commitment of all taxes were examined and all abatements were compared to see that they were approved by the Board of Assessors.

The Tax Collector has made a fine showing in the collection of current taxes, a balance of \$37,189.35 being unpaid for the fiscal year as compared to \$42,177.30 for the year ended February 15, 1942; there are however, several accounts over this period of years which should be either collected or abated during this year while conditions make payment possible otherwise they will become a worthless asset to the City.

Accounts Receivable:

Balance Due from Martha E. Johnson **\$7,096.24**

A Court action in the name of the City of Laconia as plaintiff for the recovery of \$22,096.24 against Martha E. Johnson resulted in a judgment in favor of the City for the full amount: the Bonding Company having paid the \$15,000.00 limit of the policy, the above amount remains unpaid and must be carried as an asset.

Property Acquired by Tax Deeds **\$1,980.02**

This amount has been reduced considerably this year by the sale of several parcels of land by the City.

Laconia Shoe Co. **\$2,866.38**

This amount represents the total of rents paid under the terms of the lease from the City to Laconia Shoe Company.

Leavitt Fund **\$1,116.84**

Miscellaneous Liabilities **913.87**

Highways and Bridges **294.19**

This small amount is carried over as unexpended balance to the credit of this department for unfinished work.

Motor Vehicle 1943 **\$260.67**

The amount received from this source of revenue was checked and verified with the receipts of the City Treasurer and also with the permit cards.

Overlay for Abatements **\$3,193.95**

This amount was carried over to enable the Assessors to have sufficient to care for all abatements necessary during the next fiscal year.

Unexpended Appropriations **\$61,039.88**

Appropriations made during the year were verified with the records of the City Council and expenditures were properly approved by Treasury Warrants: all transfers were approved by the Mayor and City Council; a detailed report of all appropriations may be found in Exhibit I of this report; practically the entire amount above is credited to the School Department which has June 30 as the end of its fiscal year.

Notes

For the second time in as many years, the City finds itself with no outstanding notes as of February 15, 1943.

Credit Balance **\$28,231.41**

The above amount represents the excess of current assets over current liabilities and is nearly as large as the one for the previous year; during the past year \$49,000 was paid on the Serial Debt with no additional Bond Issue thereby reducing the Net Debt to \$180,750.00 which is another new low for many years. The final payment of \$11,250.00 was made this year on the School District Bonds. The Mayor and City Council should be commended highly once again for the fine showing made by them during the present year.

SERIAL DEBT

The Serial Debt outstanding as of February 15, 1943 is detailed in Exhibit IV of this report and shows a Net Debt of \$180,750.00 as compared to \$229,750.00 on February 15, 1942; this represents a decrease of \$49,000.00 during the fiscal year.

CEMETERY TRUST FUNDS

The following statement of Trust Funds was verified by examining all pass books of Savings Banks and Securities held by the Trustees and by checking all the expenditures with the Savings Bank Books. All receipts and expenditures are properly recorded on their books.

STATEMENT OF TRUST FUNDS

Amount of Trust Funds on hand February 15, 1942	\$57,641.09
Trust Funds received during year	1,650.00
Unexpended interest on hand February 15, 1942	3,247.68
Interest received during year	1,746.71
	<hr/>
	\$64,285.48

Amount of interest expended during year	\$1,618.02
Balance of interest on hand February 15, 1943	3,376.37
Principal of Trust Funds on hand—Savings Banks	59,191.09
Principal of Trust Funds on hand—Water Co. Stock	100.00
	<hr/>
	\$64,285.48

CARL F. BLAISDELL, Chairman.
CHARLES F. AYERS, Sec'y-Treas.
EDGAR B. PRESCOTT

LIBRARY TRUST FUNDS

The books of the Treasurer were examined by me and the balance was verified by Statements from the Bank. All expenditures were thoroughly checked and compared with receipted bills.

I wish at this time to express my appreciation for all courtesies extended to me during the course of my examination by all the Departments: also to commend all Departments for the efforts made by them to keep within their budgets during the past year.

Respectfully submitted,

DANA S. BEANE,
Auditor.

CERTIFICATE

I hereby certify that the accompanying balance sheet and the statement of Serial Debt reflect the financial condition of the City of Laconia as described by its books at the close of the fiscal year ended February 15, 1943. I further certify that I have audited the income and expense accounts of the City for the past year, and have found them correct as detailed in my report submitted herewith.

DANA S. BEANE,
Auditor

SUMMARY OF VITAL STATISTICS

Number of births	432
Number of marriages	192
Number of deaths	205
Number of births not previously recorded	81
Number of deaths occurring at Belknap County Farm	12
Number of bodies brought here for burial	33

By Chapter 106 N. H. Laws of 1917, the Clerks of Cities and Towns are required to send a copy of every child's birth certificate to its parents, and if said copy is not received within sixty days from date of child's birth, the parents should notify the City Clerk, in order that same may be placed on record.

Efforts have been made to make the records of vital statistics correct as possible. Should any error or omission be detected, the City Clerk will appreciate the kindness conferred by being informed of the same, that the records of the city be made right.

EARL FLANDERS, City Clerk.

INDEX
